PROFILE

Consultant who blends secure-by-design thinking with Python-driven automation. Built Zillow-scale scrapers and AI “virtual employees” that now absorb 50 %+ of routine support tasks and surface real-time KPIs for leadership. CompTIA Security+ certified and Microsoft Azure Fundamentals certified, embeds threat-mitigation controls into every integration—cutting data-processing time from hours to minutes while hardening attack surfaces.

EDUCATION

2018 – 2023 OTTAWA, CANADA

Computer Science | B.S. Carleton University

- Graduated from honors program with a focus in Computer and Internet Security
- Relevant Courses: Wireless Networks and Security, Computer Systems Security, Applied Crypto and Authentication

EXPERIENCE

02/2025 – PRESENT

Ai Automation and Integration Intern Easy Seller Leads

- Contributed to the creation of AI-powered virtual employees designed to handle customer service tasks efficiently.
- Automated employee functions to improve productivity and reduce manual workload by integrating AI-driven solutions.
- Integrated multiple communication and workflow channels to enable seamless task execution for AI employees and streamlined operations.
- Built a web scraper to extract relevant Zillow listings, streamlining data collection and analysis for property insights.

07/2024 – 09/2024

Enterprise Technical Consultant, Internship Wisdom-Tree

- Consulted for Farmers Edge an agri-technology company, specializing in agri-retail, lab services, and e-commerce sectors.
- Conducted extensive market research to analyze TAM/SAM and identify key industry trends, contributing to the development of strategic go-to-market (GTM) plans.

EXPERIENCE

- Designed marketing initiatives to increase inbound and outbound traffic by 10%.
- Automated workflow processes using Python, reducing manual workload by 50%
